

UNIGEM EXIM

Premier Manufacturer & Global Exporter

Official Product Catalog & Specifications: Precision Engineering Solutions

Product Line Overview

Unigem Exim supplies precision engineered components, CNC-machined parts, and durable industrial fasteners to international manufacturing, automotive, and construction sectors worldwide.

Product Specifications & Portfolio

1. Precision Machinery Components

Overview: CNC-machined precision parts engineered for mission-critical industrial applications, automotive equipment, and production machinery.

Key Items & Formats:

- CNC Lathe and Milling Components
- High-Tolerance Shafts, Bushings & Spindles
- Custom Machine Tool Parts & Fixtures

2. Industrial Fasteners & Hardware

Overview: High-tensile fasteners, bolts, and screws manufactured in stainless steel, carbon steel, and alloy grades.

Key Items & Formats:

- Stainless Steel Bolts, Nuts & Washers (SS 304, SS 316)
- High-Tensile Hex Head Screws (Grade 8.8, 10.9, 12.9)
- Custom Threaded Fasteners & Anchors

3. Sheet Metal Fabrications

Overview: Laser-cut, stamped, and formed sheet metal parts with protective powder coating and plating for heavy-duty operational environments.

Key Items & Formats:

- Custom Electronic Enclosures & Panels
- Stamped Metal Brackets & Clips
- Automotive & Industrial Sub-Assemblies

International Inquiries & Orders:

Headquarters: New South Head UniGem Exim A1001, Vision's indradhanu Ph-1, GAT No.510-514, Moshi-Chikhali link road, jadhavwadi, Pune, Maharashtra, India - 411062
